

SYNCLINK ENTERPRISE AGREEMENT

Document Reference: SLA-CzSD3Kk8-296460

1. PARTIES & ENGAGEMENT

This Independent Services Agreement ("Agreement") is executed on September 28, 2026 by:

- Client: Yan Alex (yan@mailinator.com)
- Specialist (Symbiote): Smith John ()

2. PROJECT TITLE & SCOPE OF SERVICES

Project: End-to-End ML Pipeline

The primary objective of this initiative is to architect, develop, and deploy an enterprise-grade End-to-End ML Pipeline solution tailored for the Artificial Intelligence & Machine Learning ecosystem. Designed with high reliability, scalable architectural patterns, and responsive user-centric workflows, this project addresses mission-critical platform requirements while ensuring technical agility and code maintainability.

Client Specifications & Directives:

"Predict user churn or student risk using XGBoost or LightGBM, track metrics with MLflow, and deploy via FastAPI, Docker, and AWS."

Core Objectives & Technical Architecture:

- Frontend & Experience: Deliver a responsive, component-driven client architecture leveraging modern reactive state management and robust client-side validation.
- Backend Services & APIs: Build resilient, strictly-typed API services ensuring sub-100ms response times, secure token authentication, and data consistency.
- Data Architecture & Integration: Implement optimized database schema indexing, structured queries, and secure integration with external vendor systems.
- Quality, Security & Compliance: Integrate comprehensive automated test suites, input sanitization, OWASP security best practices, and CI/CD automation.
- Execution Cadence: Phased sprint deliveries with milestone reviews within the 4 weeks timeframe under a dedicated 40 hrs/week Remote workflow.

3. COMPENSATION & MILESTONE SETTLEMENT TERMS

Total Agreed Value: \$600 USD

Milestones and deliverables are tracked on the SyncSphere workspace with itemized invoicing upon deliverable review.

4. INTELLECTUAL PROPERTY & CONFIDENTIALITY

Upon final disbursement of funds, all work products and intellectual property created under this contract are exclusively assigned to the Client. Both parties agree to maintain strict confidentiality of proprietary project details.

5. DIGITAL EXECUTION & E-SIGNATURES

CLIENT SIGNATURE
